SuperAWOS

To Whom It May Concern:

CALSTAR purchased a SuperAWOS from Potomac Aviation Technology in early 2007. It was placed in Fort Bragg, California a rural Coastal town at the local hospital.

This SuperAWOS is in a high salt environment and CALSTAR has found the equipment, specifically the visibility sensor, to be very reliable.

The customer service that Potomac Aviation Technology offers is phenomenal; even though there have been very few issues; each

MEMORANDUM

TO: All Interested Parties
RE: Super AWOS
DATE: December 1, 2010

In January 2007, the Sebastian Municipal Airport installed a new 'Super' AWOS system. The new system replaced a Potomac Aviation AWOS system. Since that installation, I am pleased to report that the Super AWOS system at Sebastian has exceeded all expectations as to performance and reliability. In addition, Sebastian Airport has received prompt, professional, and courteous technical support from Potomac Aviation.

By way of context, Sebastian Airport is a non-towered field. The airport is frequented by a large number of flight school students, in addition to local flyers. Our Super AWOS system has proved to be extremely valuable in the areas of wind and, most especially, visibility reporting.

It is with enthusiasm that I recommend the Potomac Aviation Super AWOS system. Our system has proven to be an extremely cost-effective safety and information device that enhances the capability of Sebastian Airport. If further information is needed, I am available to answer any inquiries.

To Whom it May Concern:

Spruce Creek is a premium residential airport and fly-in community (7FL6), Atlantic seashore in Daytona Beach, Florida. We have 650 aircraft based here, our web site is (www.scpoa.com/airport)

Our SUPER AWOS has performed accurately and reliably, for the past year in our harsh ocean environment.

Our pilots love the system, and Potomac Aviation's customer service has a

We highly and unconditionally recommend SUPER AWOS for any similar a

Memo No. Aviation-T-2014/5820
 Dated Chandigarh the 25th February, 2014.

Subject: Upgradation of 5 aerodromes/airstrips in the State.

Jindalgarh airport becomes India's first private (non-commercial) airport with Instrument Landing Procedure

Procedures designed by US-based Supreme Aviation

Jindalgarh Airport located in India's coal belt, Chattisgarh, has made a place for itself in the books of India's aviation history by becoming the first private airport with instrument landing procedures which are crucial to enable pilots to land aircraft in low visibility conditions. It is a mandatory requirement for cloudy weather conditions

and night landing.

The procedures were designed by Supreme Aviation, a Texas, USA based company.

None of the 18 DGCA approved private airports in India have any instrument landing procedures in place nor do the 105 airports owned and operated by state governments.

(contd. on page 7)

Vol. XXIII No. 62

MUMBAI: Wednesday, April 3, 2013

E-mail: news@mumbai@exim-india.com • infomumbai@exim-india.com

₹ 11.00

United Africa Feeder Line (UAFL) has teamed up with Exim News Service to launch a new service - Direct Mail Service - East Africa - Madagascar Africa (DMA) Service

MUMBAI, April 2
 UNITED Africa Feeder Line (UAFL) has teamed up with Exim News Service to launch a new service - Direct Mail Service - East Africa - Madagascar Africa (DMA) Service. The service is being launched together with a number of regional feeder services. The addition of the IMMA joint service. The first sailing is scheduled from Karachi service enables it to support the growing trade between ISC countries and IOI/South and East Africa. It yet again emphasises UAFL's commitment to its customers in the region and to the region in general, stressed an official release.

Jindal Garh Airport India's first private airport to have instrument landing procedure Supreme Aviation, a Texas corporation, designs the IL procedure for O.P. Jindal airport in Chhattisgarh

Exim News Service

MUMBAI, April 2

IT is indeed surprising that India's only 18 approved private airports do not have any instrument landing (IL) procedure in place. The other 105 airports owned and operated by state governments join this club too.

An instrument landing procedure is required by pilots to land the aircraft in low visibility conditions. IL procedure is also mandatory for landing during cloudy conditions and recommended for operations at night.

Traditionally, airports in India have been owned and operated by the Airports Authority of India (AAI). Currently managing about 100 airports across the country, AAI has IL procedures in place for almost all airports where airlines serve.

"It is encouraging knowing airport owners and operators

RE: Development of General Aviation airstrips

Mr. Agarwal,

As you may be aware, we are in process of development of the following airstrips currently in the possession of the state:

1. Amreli
2. Mandvi
3. Mehsana

To upgrade the above airstrips, we feel the need of certain equipment's and services like AWOS systems, Navigational aids, runway/taxiway lighting systems, security systems followed by aircrafts and other equipment's projected in your presentation to our department, in near future.

Accordingly, we suggest that further to your presentation "Sangeeta Aviation Services Pvt Ltd" in association with its mentioned subsidiaries and partners in USA as well as other countries may undertake detail surveys at their cost and may like to share the same with our experts

1. Survey Report of the airstrips/airports
2. OLS Charts as required for 10-15-30 NM radius

Please feel free to get in touch with us if you have any questions.

Thanking you,

Yours faithfully,

Capt. Ajay Chauhan

सरकार की मदद से उड़ेंगे विमान

राजस्थान पत्रिका

हर उड़ान में सरकार ने अनुदान के तौर पर ली सीटों की गारंटी कोटा

यदि सबकुछ ठीक-ठाक रहा, आने वाले कुछ दिनों में क सहित सूबे के चुनिंदा छोटे शहर से नियमित विमान सेवा शुरू होगी। राज्य सरकार की पहल पर एक कंपनी ने इसकी कवायद शुरू की है। कंपनी के सीईओ और मुख्यमंत्री के बीच पिछले माह जयपुर में वार्ता भी हो चुकी है। छोटे से बड़े शहरों को जोड़ने की योजना के तहत कंपनी ने प्रत्येक उड़ान (शिड्यूल) में सरकार से अनुदान के तौर पर कुछ सीटों की गारंटी मांगी है, जिस पर राज्य सरकार ने सहमति जता दी है।

सूत्रों ने बताया कि सुप्रीम एविएशन इंडिया इस दिशा में काम कर रही है। जिन जगहों से विमान सेवा शुरू करने की तैयारी है, वहां के जिलों के प्रशासन को जरूरी इंतजाम करने संबंधी प्रस्ताव भेजे जा चुके हैं।

इन शहरों को जोड़ा जाएगा

कंपनी के इंटरनेशनल ऑपरेशन्स का काम देखने वाले मिनेश सोमपुरा ने बताया कि राज्य सरकार की पहल पर राज्य के पर्यटन को

यदि सबकुछ ठीक रहा तो आने वाले कुछ दिनों में कोटा सहित सूबे के चुनिंदा छोटे शहरों से नियमित विमान सेवा शुरू होगी। राज्य सरकार की पहल पर एक कंपनी ने इसकी कवायद शुरू की है।

कंपनी के सीईओ और मुख्यमंत्री के बीच पिछले माह जयपुर में वार्ता भी हो चुकी है। छोटे से बड़े शहरों को जोड़ने की योजना के तहत कंपनी ने प्रत्येक उड़ान में सरकार से अनुदान के तौर पर कुछ सीटों की गारंटी मांगी है, जिस पर राज्य सरकार ने सहमति जता दी है। सुप्रीम एविएशन इंडिया इस दिशा में काम कर रही है। जिन जगहों से विमान सेवा शुरू करने की तैयारी है, वहां के जिलों के प्रशासन को जरूरी इंतजाम करने संबंधी

बताया कि राज्य सरकार की पहल पर राज्य के पर्यटन को बढ़ावा देने के लिहाज से उन शहरों का चयन किया है, जहां यात्रीभार मिलने की गुंजाइश है।

इसमें कोटा, धौलपुर, किशनगढ़, झुंझुनू, भीलवाड़ा, बीकानेर, जैसलमेर व आबू रोड शामिल हैं। इन्हें सरकार के निर्देशानुसार जयपुर, उदयपुर व जोधपुर से जोड़ा जाएगा। योजना यही है कि इन शहरों की कनेक्टिविटी हो।

सभी इंतजाम पूरे

कोटा के लिए जयपुर से सोमवार से शनिवार तक प्रत्येक दिन दो शिड्यूल तय किए हैं। कोटा जिला प्रशासन को एयरपोर्ट पर एम्बुलेंस इंतजाम

औपचारिकताएं पूरी की जा रही हैं। सरकार जल्द ही इसकी घोषणा करेगी। हम मानते हैं कि आगामी तीन माह में कुछ जगहों से नियमित उड़ान शुरू कर देंगे।

मिनेश सोमपुरा, इंटरनेशनल ऑपरेशन्स, सुप्रीम एविएशन इंडिया, मुम्बई

कंपनी इस तरह का काम गुजरात व महाराष्ट्र में भी कर चुकी है। उसी की तर्ज पर राजस्थान में अब यह किया जा रहा है।

सरकार 'अनुदान' देने को तैयार

कंपनी इन जगहों से 12 से 14 सीटर विमान (मॉडल-सेशना करावन) सेवा शुरू करेगी। इसमें से 4 से 5 सीटें प्रत्येक शिड्यूल में राज्य सरकार को देनी होंगी। मुख्यमंत्री और

लिखित स्वीकृति मिली, पर अनुबंध नहीं, कोटा की उड़ान 3500 रु. में होगी

कोटा

इंडिया कंपनी राज्यों में विमान तैयारी कर रही है। यह से 14 सीट पर ही है। यह और महाराष्ट्र व महाराष्ट्र की बात हो अमित के धंधरा राजे कार की ति नहीं के बाद शहरों में

दस शहरों को जोड़ेंगे। इसमें कोटा से जयपुर के बीच दो फ्लाइट होगी, जिसका किराया साढ़े तीन हजार रुपए होगा। कंपनी ने अपनी ओर से विमान सेवा शुरू करने की पूरी तैयारियां कर ली हैं, लेकिन जब तक राज्य सरकार से लिखित स्वीकृति नहीं मिलती तब तक इसे चलाना मुश्किल है। उन्होंने बताया कि सरकार की ओर से भरने के बारे में भी बात हुई है लेकिन, इसका लिखित करार नहीं हो पाया।

कलेक्टर का पत्र मिला

कंपनी के आपरेशन हेड मिनेश सोमपुरा ने बताया कि कोटा कलेक्टर को लिखे पत्र का जवाब उन्हें मिल गया है। उन्होंने कोटा के एयरपोर्ट को विमान सेवा के उपयोग के लिए उपयुक्त बताते हुए फायर व एम्बुलेंस सेवा देने का भरोसा दिलाया है। सरकार से स्वीकृति मिलते ही कंपनी दो से तीन महीने के भीतर कोटा से विमान सेवा शुरू कर देगी। कंपनी का कोटा के अलावा जयपुर, झुंझुनू, जोधपुर, किशनगढ़, बीकानेर, भीलवाड़ा, उदयपुर, धौलपुर व आबूरोड के लिए विमान सेवा शुरू करने का प्लान है।

SUPREME TRANSPORT ORGANISATION PVT LTD

A large, rusted, conical metal structure, possibly a mold or a component of a machine, is being transported on a truck. The structure is made of a grid of heavy metal beams and is mounted on a flatbed trailer. The truck is a red and white cab model with the number '4018' on the roof. The scene is set outdoors on a dirt ground, with a tall metal tower in the background. The text 'SUPREME' is overlaid in large, bold, blue letters, with 'in the early 1980's' in smaller blue letters below it.

A red Tata truck is shown from a side-front perspective, carrying three large, cylindrical, ribbed industrial machines on its flatbed trailer. The truck is decorated with colorful patterns and has a sign on top that reads "GOODS". The text "SUPREME" is overlaid in large, white, serif font across the middle of the image. Below it, the text "in the" and "late 1990's" are also overlaid in a smaller, white, serif font. The truck has "TEXU 42P3" written on its side and a red triangle warning sign on the front. The background is a plain, light-colored sky.
